Quality routines survey QR-01

Printed: 30.04.2004 Page 1 of 2

Last Modified	Modified by	Description	Approve date	Approved by
06.06.2000	SD	NY		SD
10.03.2003	GH	Layout modifications		
22.10.2003	GH	Update of the list with new quality routines and deleted quality routines that was not active		
19.01.2004	GH	Updated. Following Quality routines has been closed: QR-A01 QR-E02, included in QR-E01 QR-E03, included in QR-E01		MR
13.02.2004	GH	New QR's QR-A04 and QR-A05		MR

**Scope** The scope of this document is to give a survey of quality related routines in use and to give a brief description of the scope and contents of each routine.

All below routines are stored on API Maintenance Systems' LAN in folder "Quality routines". All documents are stored with the QA document number followed by a short description of the document as described in the table below

QA document	Description
QR-01	<b>Quality routines survey</b> Overview of the quality routines
QR-02	<b>Quality routine standard</b> A description how to make quality routines including numbering, page layout, modifications etc.
QR-A00	<b>AMS Denmark Organization</b> Describes the organization of API Maintenance Systems A/S
QR-A03	<b>Handbook for Employees</b> General policy for employees concerning holiday, pension etc.
QR-A03-1	<b>Addendum for QR-A03</b>
QR-A04	<b>Time registration</b>
QR-A05	<b>Security</b>
QR-A06	<b>QR-Training of Employees</b>
QR-B01	<b>Order handling</b> Describes the handling of incoming orders
QR-B02	<b>Storing documents</b> Describes where files related to incoming orders and programs developed for customers is stored in API Maintenance Systems server environment
QR-B04	<b>Phone and address info</b> Contains details of how to access the company and each employee
QR-B05	<b>Purchase order to suppliers</b>
QR-B06	<b>Production of standard products</b>
QR-B07	<b>Weekly planning</b>
QR-B08	<b>Invoicing</b>
QR-C01	<b>Procedures for handling customer projects</b> How customer projects are handle concerning special programs etc.
QR-C02	<b>Quotation templates</b> Controls the modification of the to templates QR-C02-1 and QR-C02-1
QR-C02-1	<b>Quotation template</b>
QR-C02-2	<b>Quotation templateDK</b> (Template in danish)

Quality routines survey QR-01

Printed: 30.04.2004 Page 2 of 2

QR-C03	<b>Customer translations</b> Describes how to generate customer translations
QR-C04	<b>Customer Audit DRAFT</b>
QR-C05	<b>Customization test procedure</b>
QR-C06	<b>Customer project development environment</b>
QR-C07	<b>Quotation request form</b>
QR-D01	<b>Programming Techniques</b>
QR-D02	<b>API PRO development directory</b>
QR-D03	<b>Check-in procedure DRAFT</b>
QR-D04	<b>API PRO Development model</b>
QR-D05	<b>Procedure for locking program files/source code control</b>
QR-E01	<b>Error handling</b>
QR-P01	<b>Making Patches and new version</b>
QR-P06	<b>Creating fix-packages</b> Describes how fix-packages for between-patch error corrections should be distributed through Internet
QR-P08	<b>Updating manuals</b> Describes how manuals are updated
QR-P09	<b>Translations</b>
QR-S01	<b>API support system documentation</b> Describes how the support department is supported by the project and development department
QR-S02	<b>Support levels</b>
QR-S03	<b>Support Targets DRAFT</b>
QR-T01	<b>General test procedure</b> Describes which test procedures to go through before releases
QR-T02	<b>Test documentation</b> Describes a test procedure directed towards specific test of the most critical functions in API PRO
QR-T02-1	<b>Test result template</b>
QR-T02-2	<b>Checklist template</b>
QR-T02-3	<b>Installation test template</b>
QR-T02-4	<b>Validation procedure template</b>
QR-T03	<b>Beta test</b>
